

2024/25 (SDF) PCN Development Funding

Overview

Thank you for your continued work to strengthen PCN collaboration and delivery.

NCL PCNs are asked to inform NCL ICB how you intend to use 2024/25 PCN Development funding and to confirm you understand the requirements of the funding by **completing this online form by Friday, 31st January 2025**.

Please note, non-completion of this online form may result in funds being returned to the ICB.

All PCNs are required to complete the PCN Support Level Framework (SLF) and also choose one or more of the other options (Workforce - Supporting skills and capabilities; Improving ways of working; Other areas of work).

Use of the funding must not duplicate with other sources of funding e.g. capacity and access improvement funding, or with functions already provided by other parts of the system e.g. NCL training hub workforce education leads.

As this funding is non-recurrent, PCNs must have plans in place to maintain funding where activities introduce recurrent costs.

PCNs will be asked to report during April 2025 on progress to date (recognising work may continue into 2025/26) including:

- Work completed to date
- Measurable impact of the work
- Final breakdown of allocation of the funds to each area of work.

When developing plans, please consider these within the context of SMART (Specific, Measurable, Achievable, Relevant, Time-bound) methodology.

Further information regarding this years (2024/25) PCN development funding and PCN SLF Framework can be found within the below 'Related' section.

PDF and MS Word copies of the survey which PCNs may find useful in considering responses before completing the survey online can be accessed via the below 'Related' section. However, please ensure your PCN final submission is returned via the online survey.
