2025-26 SDF PCN Development Funding - Progress and Evaluation Report

Overview

Action required: PCNs are asked to complete the following online form by Friday, 8th May 2026.

As part of 2025/26 SDF PCN Development funding, PCNs were asked to select one or both of the following themes to deliver with allocated development funding:

Theme: Workforce (supporting skills and capabilities)

- Funding a PCN Workforce Education Lead - separate from NCL Training Hub funded Workforce Education Leads.
- Support MDT working and ARRS supervision.
- Funding a PCN Quality Improvement Lead.

Theme: Improving ways of working

- Reducing unwarranted variation and increasing operational efficiency across the PCN.
- Adopting / embedding technology to support at-scale working across the PCN.
- Service and/or network development through PCN collaboration with network practices and VCFSE / local system partners.
- Addressing health inequalities through PCN development and collaboration with network practices and VCSFE / local system partners.

PCNs are now asked to complete an online progress and evaluation report for the purpose of:

- Providing assurance that funds have been spent in line with national and local guidance.
- Providing assurance of delivery in line with the PCN plan and local guidance.
- Collecting examples of best practice that can be shared between PCNs.
- Collating learning to inform our approach for how we implement similar funding in future years.

Action required: PCNs are asked to complete the following online form by Friday, 8th May 2026.

PCNs are asked to consider this impact utilising SMART (Specific, Measurable, Achievable, Relevant, Time-bound) methodology. **Please only complete a progress and evaluation report for the theme(s) which your PCN has worked on.**

Guidance circulated to PCNs regarding 2025/26 SDF PCN Development funding can be found on the NCL GP website: **SDF PCN Development Funding** <https://gps.northcentrallondon.icb.nhs.uk/pcn-development-funding> . Please note, this webpage includes information regarding 'Developing neighbourhood health service models' – this is not part of this reporting cycle. PCNs are asked to evaluate progress against only the themes (workforce and/or improving ways of working) delivered.

A PDF copy of the online progress and evaluation report questions can be found in the below 'Related' section. However, PCNs must submit their completed report online.

PCN Details

What is your name?

(Required)

What is your email address?

(Required)

In which NCL borough is your PCN located?

(Required)

Please select only one item

○ Barnet

○ Camden

○ Enfield

○ Haringey

○ Islington

What is your PCN name?

(Required)

What is your PCN code?

(Required)

Theme: Workforce (Supporting skills and capabilities)

Please only complete this page if your PCN has delivered the theme - Workforce (supporting skills and capabilities).

Did your PCN deliver this theme (Workforce - supporting skills and capabilities)? If yes, please proceed with completing this page. If no, please proceed to the next page and theme (Improving ways of working).

(Required)

Please select only one item

○ Yes

○ No

What percentage (%) of funding was allocated to this theme?

Was a PCN Workforce Education Lead recruited?

Please select only one item

○ Yes

○ No

If yes, from what date was this post filled?

If yes, for how many sessions a month?

Was a PCN Quality Improvement Lead recruited?

Please select only one item

◯ Yes

◯ No

If yes, from what date was this post filled?

[   ]

If yes, how many sessions a month?

[   ]

What did the PCN deliver and how did the practices collaborate on delivery:

[   ]

If you delivered this theme as part of 2024/25 PCN development, what learning from 2024/25 was identified and incorporated into 2025/26 theme delivery?

[   ]

What measurable and / or non-measurable impact did the work have?

[   ]

What aspects of delivery will continue into 2026/27?

[   ]

What was the learning for your PCN for delivering similar plans in the future?
